

Report for PRME- Department of International Affairs of Antonio Meneghetti Faculdade (AMF)

The Department of International Relations of Antonio Meneghetti Faculdade was founded in April 15, 2011, being authorized by the Principal of Antonio Meneghetti Faculdade, Ms. Helena Biasotto. The department is responsible for: publicizing AMF abroad; helping AMF preparing leaders to act in an efficient way in a globalized world; promoting international actions such as Youth Identity Project; building actions to strengthen cultural exchanges among institutions; looking for partnerships and opportunities of academic improvement abroad; creating cooperation between Antonio Meneghetti Faculdade and foreign Educational Institutions; revising, expanding and consolidating actions that provide exchanges to the academics of AMF with foreign institutions; organizing events and group travels with international partner institutions.

Focus on Human Development

Mission

Education of a new entrepreneurial intelligence, individuated, strengthened and focused on practical success action, humanly superior and socially correct.

Vision

To be a reference center in terms of training and development of professionals to work at all levels of social, institutional and business environment.

Values

AMF is a reality that produces and grows based on its main motivation: to create a school of higher education where young people who attend are evidence that man can have healthy, productive life, being a real seed of human intelligence in the contemporary world, learning to do, to know and to participate and collaborate with the world to which they belong.

A word from Antonio Meneghetti Faculdade

We have walked a path with challenges and a lot of hard work. It makes us be what we are now. We, students, professors and employees - all of us - compose the strong seed that gives birth to the fructiferous tree which Antonio Meneghetti Faculdade is nowadays. Each individual commitment makes us what we are now.

Our young but strong history gives us more responsibility and it is necessary to maintain and to evolve always. It seems hard, but the experience shows that, if each of us makes its best with a lot of dedication in each activity, always seeking for perfection, the result will show naturally.

Ms. Helena Biasotto, Principal of Antonio Meneghetti Faculdade

Practical Activities Correlated to the PRME Principles

PRME Principle 1 | Purpose: We will develop the capabilities of students to be future generators of sustainable value for business and society at large and to work for an inclusive and sustainable global economy.

What we have done: AMF educate a new entrepreneurial intelligence, individuated, strengthened and focused on practical action success, humanly superior and socially correct.

PRME Principle 2 | Values: We will incorporate into our academic activities and curricula the values of global social responsibility as portrayed in international initiatives such as the United Nations Global Compact.

What we have done: AMF is a reality that produces and grows based on its main motivation: to create a school of higher education where the young people who attend it are evidence that man can have healthy, productive life, being a real seed of human intelligence in the contemporary world, learning to do, to know and to participate and collaborate with the world to which they belong.

PRME Principle 3 | Method: We will create educational frameworks, materials, processes and environments that enable effective learning experiences for responsible leadership.

What we have done: FOIL (Formação Ontopsicológica Interdisciplinar Liderística) – Interdisciplinary Ontopsychological Training for Leaders. International method based on the Ontopsychological science to train citizens and professionals with an entrepreneurial mindset and attitude. In the bachelor courses of AMF, this method is taught in the chairs of Leadership and Entrepreneurial Fostering which are obligatory for all students in all the semesters of the course.

PRME Principle 4 | Research: We will engage in conceptual and empirical research that advances our understanding about the role, dynamics, and impact of corporations in the creation of social sustainability, environmental and economic values.

What we have done: AMF's Scientific Magazine, *Saber Humano*, contributes to the production of knowledge and its transformation in the field of Humanities and Applied Social Sciences, in particular the areas of Business and Information Systems with a scientific, humanistic and interdisciplinary approach.

With a partnership between AMF and Saint Petersburg State University (Russia), it has been developed a research project with Russian-Brazilian professors and students of the Faculty of Psychology and the Cathedra of Ontopsychology. The research project entitled "positive socialization of young people in conditions of social and economic transitivity: practical application of ontopsychological education", supported by the Russian government. With the study of the themes such as socialization of modern youth, the problem of socialization of young people in contemporary times, risks and social deviance, with theoretical background in psychology, pedagogy and sociology, the project aims to analyze these aspects and investigate positive socialization of technology among youth in conditions of social and economic

transitivity, demonstrating the practical application of Ontopsychological Pedagogy in Brazil and Russia. This project was supported by four institutions: Russian Government, through the State Foundation and the University of St. Petersburg Science Foundation, Antonio Meneghetti Foundation Russia, Antonio Meneghetti Foundation Brazil and Antonio Meneghetti Faculdade.

Núcleo de Excelência em Linguagem (NEL) - Center for Excellence in Language - It was established in August 2014 in order to promote the further development and update of the logical-textual feature of academic writing for students, from studies based on grammar and textual linguistics, in order that they practice the production and review activity in genres for academic demands of the institution to which they belong. Such linguistic-textual practice allows to qualify students who have no formal training in literature, to also act in the exercise of training the official language required in the academic environment and stimulating other students to read and to produce academic texts and papers.

PRME Principle 5 | Partnership: We will interact with managers of business corporations to extend our knowledge of their challenges in meeting social and environmental responsibilities and to explore jointly effective approaches to meeting these challenges.

What we have done: One of the criterias of composing the board of teachers of AMF is that the professional chosen for it position have also practical skills on it proved by their market actuation. Therefore, in the bachelor of Business, it is very usual that the students have classes with businessman with recognized actuation in the market.

AMF also encourages its students to go for training courses abroad, to have a great experience in a new culture, to learn new languages for efficiency in professional practice, to open and enlarge their vision of the world, their mentality and to learn to relativize their stereotypes (role models).

Among the cooperation agreements that AMF holds there are: the cooperation agreement among AMF and Saint Petersburg State University (SPBU), from St. Petersburg (Russia); the Scientific and Cultural Cooperation Agreement with the Università per Stranieri di Perugia, in Perugia (Italy); the Cooperation Agreement with *Centro Lingua Italia Calvino* (CLIC) - Dante Alighieri in Florence (Italy); the Scientific and Academic Cooperation Agreement with the Università di Torino in Turin (Italy) for the Law Course; the Agreement with Regent School - Learn English from London (UK). New international agreements and partnerships are underway.

Besides, AMF has partnership with PRME, Principles for Responsible Management Education, United Nations Academic Impact, the Global Compact (as Academic Member), Antonio Meneghetti Foundation from Swiss, OntoArte Association, Brazilian Association of Ontopsychology and International Association of Ontopsychology.

PRME Principle 6 | Dialogue: We will facilitate and support the dialog and debate among educators, students, business, government, consumers, media, civil society organizations and other interested groups and stakeholders on critical issues related to global social responsibility and sustainability.

What we have done: AMF held events to promote discussion such as International Congress "Responsabilidade e Reciprocidade" ("Responsibility and Reciprocity"), with lecture of Ms. Nathalie Leroy, from the United Nations Academic Impact; United Nation Symposium: "Not leaving no one behind: the way forward - meritocracy", with representatives from UN Academic

Impact, UN ECOSOC, etc.; International Conference "A New Pedagogy for the Future Society", with the presentation of cases, research projects, research results, experience reports and workshops by many teachers and students of all over Brazil; International seminar "Rationality and Intuition: what determines the success in decision making".

Progress Report Antonio Meneghetti Faculdade

Having premised the tasks mentioned above, AMF has been developing several activities, such as those cited below.

2010
